Supervisor Hansberger Declares War on Illegal Dumping

On Friday, August 17, Third District Supervisor Dennis Hansberger held a press conference in his Yucca Valley office to declare a countywide effort to stop illegal dumping. “Our main goal is to stop illegal dumping which would include catching and prosecuting illegal dumpers,” said Hansberger. “However; my main goal is to let people know that if they break the law, they will get caught. It really is as simple as encouraging people not to do it.”

San Bernardino County launched its “Illegal Dumping Awareness Week” with 80 new motion activated cameras, many of which are infra-red, along with control panels. The County also installed over 150 warning signs that will be posted at popular illegal dumping spots. In March of this year, the Board of Supervisors adopted an ordinance with harsher penalties for illegal dumpers.
